## Belgium's Florence Nightingale: Miss Edith Cavell

Miss Cavell was 49 years of age, and had been a nurse for many years. She received her training at the London Hospital. Nine years ago she went to Brussels, and started a small training school for probationers and a nursing home.

She was very successful, and two or three years before the war, at the request of the Municipal authorities in Brussels, she completely reorganized the nursing work and affairs of the leading hospitals there. In this too she was highly successful; and during the early days of the war, her devotion to her work of helping the wounded, won for her the name of Belgium's Florence Nightingale.

After the Germans entered Brussels, they refused to allow her and other British and Belgian nurses to continue their work at the hospital. But she continued to remain at her former private nursing home. Her relatives had not heard of her since last April, it was only through the efforts of the American ambassador in Brussels that they learned her fate.

The mother of Miss Cavell still lives. She is over 80 years of age, and is the widow of Rev. Frederick Cavell, a former vicar of Swardston, Norfolk.

The circumstances leading to the murder of Miss Cavell are no doubt known to all. The charge against her was that she harbored British and French soldiers and Belgians of military age. She assisted stragglers who became detached from their armies during the retreat from Mons.

## CLARK-SCOBIE

On Monday, Miss Janet Clark of Stonewall, Man. and William Scobie, were united in matrimony at the home of M. A. McColl. Rev. J. M. Waggett, performed the ceremony.

In an interview last week, C. W. Rowley, mgr. Canadian Bank of Commerce in Winnipeg said, "Business this fall is not any different to any other fall except there is more of it."

## Packing Parcels for Soldiers At Front; Care Should Be Exercised

The public is urged to exercise every care in packing parcels for the troops. Careful packing is absolutely essential to ensure delivery of the parcels in good order.

Parcels sent abroad require a higher standard of packing than is necessary in the Canadian Parcel Post, and this applies with even greater force to parcels for the troops. Those which are inadequately packed run great risk of damage or loss of contents.

Thin cardboard boxes, such as shoe boxes, and thin wooden boxes should not be used; nor does a single sheet of ordinary brown paper afford sufficient protection. The following forms of packing are recommended:

- (1) Strong double cardboard boxes, preferably those made of corrugated cardboard, and having lids which completely enclose the sides of the boxes.
- (2) Strong wooden boxes.
- (3) Several folds of stout packing paper.
- (4) Additional security is afforded by an outer covering of linen, calico or canvas, which should be securely sewn up.

The address of the parcel should be written in ink on the cover, preferably in two places. The address of the sender of the parcel should also be stated in order that it may be returned if undeliverable. The contents of the parcel should be stated in writing on the cover.

In the case of parcels sent to the Mediterranean Force, they should be as nearly round as possible, and well-packed with shavings, crumpled paper or similar protective material. The outer covering should consist of strong linen, calico or canvas, and should be securely sewn up. The use of wooden or metal boxes with square corners is undesirable, as parcels so packed are liable to injure other parcels in transit. No perishable articles should be sent, and anything likely to become soft or sticky, such as chocolates, should be enclosed in this. Parcels merely wrapped in paper or packed in thin cardboard boxes, such as shoe boxes cannot be accepted.

## BUSINESS LOCALS

Sweetpeas, large whites, 40c, at the Harbourside Shop.

Nyal's Face Cream. A vanishing cream, delightfully scented and healing. 50c, 70c, 75c. Shepherd & McEachern, 23

Mr. P. B. McPherson, who owns a farm in the district north-west of town, is an Empress visitor this week. Mr. McPherson has been farming in the Earl Grey district, Sask., this summer.

## Patriotic Fund In Saskatchewan

The Patriotic Fund of the Saskatchewan Grain Growers is doing good work. From the Grain Growers' Guide we call the following:

"Only a week or two ago Isaac Sterling sent in a Patriotic Acre Form containing a promise of the proceeds of ten acres, and during the present week he has redeemed his promise by a contribution of four hundred bushels of No. 1 wheat."

Another paragraph runs:

"I enclose my grain ticket for 10 bushels of No. 1 Marquis Wheat, my contribution to the Patriotic Acre Fund. Although I am farming a quarter section and had severe losses with wheat owing to poor feed last winter, still I am thankful to the Creator for such a harvest, and I willingly give my little. I feel deeply for the poor war-ridden folk. God help them."

We trust that such examples of denial may be of inspiration to the circle touched by this paper, where there has been equal cause for gratitude and liberality. Our town itself has been shouldering its responsibility with credit, but there are many outsiders who do not yet seem to realize that they owe a debt to the men who are fighting their battles. The way to shoulder our obligations is that illustrated above, and not this everlasting "Let us get up something," as though we would pay our debts if we got our own good time out of it. The Patriotic Society for the district are hoping that the farmers will become organized committees, to contribute systematically definite amounts, and give it freely as they would the paying of any other debt.

## Sask. Creameries

The output of butter from co-operative creameries in Saskatchewan operated by the dairy branch, department of agriculture, reached in September 303,337 pounds. This butter all found ready sale at a figure above the market price. The Dairy Commissioner reported that he had been compelled to refuse several end-load orders, in order to retain a supply to meet the local demand. This would indicate that there is practically an unlimited demand for the right kind of butter.

## Leaders From Leland

November 4th, 1915  
George Blackburn who has been in Saskatchewan for several months, has returned to his home town, and expects to remain for some time.

Miss Olive Savaris has been engaged to teach in the Algiers School, near Pelly, Sask. and left on Saturday, for the scene of operations.

Word has been received from Mr. C. S. Pinder, to the effect that he is hard at work, but enjoying life at the Alberta College at Edmonton.

Miss Edith Lewis concluded her duties as teacher in the Delta School, last week, and is now enjoying a well-earned vacation.

Gordon Mills and his sister, Miss Veta, set sail for their home at Appen, Ont., last Saturday. We would like to those 200 have, it was not that these young people thought of the loss of the Pacific, that they left us, but that they simply liked Ontario more. We hope that some day they will return to Leland where the rest of the good people are.

Angus E. McDonald and Norman McDonald returned last week from a trip to Saskatoon, where they have been assisting in the harvesting. They report that the crops in that locality are much the same as here, and that there is a close similarity, also, in the climate.

Mr. Raymond Jensen, returned from Kenaston, Sask. on Thursday.

Miss Mayne McArthur left last week for Saskatoon. She will attend the Western Commercial College there. Her mother accompanied her on the journey. Miss McArthur has been a prominent figure in the young peoples societies, the social life, the Sunday School and the Church. With the latter she has rendered excellent service in the choir. We are sure Miss McArthur will have every success in her college life, and we wish her a happy term.

## Churchill And American Sympathy

Winston Churchill the American author and publicist, in a recent speech, has spoken enthusiastically of the sympathy of America with the Allies. He remarked, "The United States is rendering more and more that we ought to have protested at once against the invasion of Belgium. We have missed our opportunity; but we have the consolation that we may be some use to the cause as neutrals."

Mr. Churchill stated that there were four classes of people in the States—the small indifferent class, the German-Americans, the selfish manufacturers and traders, and the great mass, whose sympathy was so overwhelmingly with Britain, that many of them had sent their sons to the allied front. The kinship between America and England was explained as due in greater part, to the ethnic which existed between all Anglo-Saxon and Protestant ideals—between Anglo-Saxon conceptions and Anglo-American. Anglo-Saxon democracy had grown as the soul grew, through trial and error, through mistake and suffering, and the wealthiest community is that which contains the most sound and happy individuals.

It would be better for us, however, if many of the men who remain behind would realize that the institution which fire while fighting for on the battlefield, are worth recognizing and supporting at home.

## The Far East

In Greece, Venzelos, the leader of the war party, has triumphed. As for the King, there is little doubt but that he would like to throw the army on the side of Germany. True, the Greek army might be able to paralyze the allied offensive in Macedonia and Bulgaria, the British navy could extract a terrible reckoning from Athens, and much as Constantine dreads the wrath of his brother-in-law, the Kaiser, he probably dreads still more the British naval gun, and moreover it is by no means certain that the Greek army would follow King. There is a possibility of revolution, which is just as real a menace as the British guns. When the king ventured to protest against the landing of troops at Salonika, there was little enthusiasm in his favor, it is becoming more probable that if Greece fights, she will fight on the side of the Allies.

Mr. and Mrs. H. P. Gregg and baby daughter left on Thursday morning's train from Mr. Gregg's parent's home at Clamuel, Stillington, Co. Dublin, Ireland. It is Mr. Gregg's intention to land in London, and commission with the Imperial forces. He formerly was one of the leading business men of Empress being proprietor of an up-to-date book's furnishings store, but suffered heavy financial loss by fire. He was a member of the 1914 Village Council Board. Mr. and Mrs. Gregg's departure is much regretted by their numerous friends in the town and district who express the best of wishes for their future welfare.

## Earl Kitchener

The departure of Kitchener with an important mission to the near east brought about rumors of resignation.

The "Post" spoke in these terms—"It is generally believed that Earl Kitchener's business will necessitate a stay so prolonged that it will be necessary to fill his place at the war office before long. It is true that he has not resigned, but the importance of his present errand makes it possible that his resignation is only delayed."

The frequent reports that the resignation had been placed in the hands of the king, however, has brought forth an authorized categorical statement to the contrary, as follows: "Not only is it untrue that Earl Kitchener has resigned, but it is equally untrue that his Lordship ever tendered his resignation to the King."

## SELF-KNOWLEDGE

Union Church, Sunday next, Subject: "The Fascination of Jesus for the common man."

In terms of the long period, common people are right. Intensity of the sentiments of the common people, and we have the expression of the common people, as Carlyle, Jean Paul and others. All growth begins with self knowledge; Jesus reveals the common man to himself. The commonwealth of Jesus was ideal. Jesus' view of the hereafter is the reply to the incessant inquiry of the race.

Good music. All invited. Grand Theatre, 7.30 p.m. The Union Church represents no sect. Its creed is the belief in good citizenship, and the moral dignity of our town.

## Harvest Home Dance

The Harvest Home Dance held in the Grand Theatre, on Thursday night was thoroughly enjoyed by all who attended. The hall was decorated by sheaves of grain, while the harvest moon cast a range-tinted glow over the dancers. The music was especially good and well appreciated, Miss Edgar, pianist; C. E. Sexton, violin; J. McNeill violin were the orchestra.

## FREE WHEAT

A general meeting of the Board of Trade,  
Grain Exchange and citizens has been held in  
Fort William, for the discussion of Free Wheat.The result was a memorial to Premier  
Borden, in which was included that free wheat  
would be a serious blow to Canadian commerce;  
that not one ear should be diverted from the  
All-Canadian route. The real agitators for free  
wheat being the United States Railway, and the  
Minneapolis and Duluth milling interests.  
That there has been no contention in handling  
the wheat from the West. That the Minneapolis  
and Duluth markets have been under the  
Winnipeg markets with few exceptions. That  
the drying facilities at Calgary, Saskatoon,  
Moose Jaw, Fort William and Port Arthur have  
never been worked to their capacity by one half,  
even though there has been an unprecedented  
call for the treatment of wet grain.So far, so good, of course. The trouble in  
this instance seems to be, however, that it is the  
Fort William board of Trade and Grain  
Exchange, rather than the farmers, that are the  
agitators against Free Wheat. If it be, as  
claimed, that it is the States only that is  
concerned, why does that country ask their  
Government to remove the duty, irrespective of  
whether Canada removes hers or not? As to  
Minneapolis prices being lower than Winnipeg,  
why then is the farmer making all this trouble.He must be a unique character, to be seeking a  
lower market for his grain. This would occasion  
grave doubts about Minneapolis low prices, even  
to one who knows nothing about the actual  
quotations whatever. The determining market  
for wheat is Liverpool; the Winnipeg market  
on account of congestion of local markets, is  
bound to fluctuate, whereas Minneapolis has the  
advantage of keeping by the Liverpool market.Another serious point is, our exports to  
Great Britain are almost twice the amount of  
our imports from that country; with the States  
it is the reverse. Our imports are from there,  
twice the value of our exports. Shipping com-  
panies cannot afford to sail empty vessels, and  
Britain finds it cheaper to pay Canada with  
American goods, than to ship her own. The  
consequences are unsatisfactory freight facilities.  
Altogether, it is not any more free wheat, than  
it is a general freeing of trade that is required  
to give a solid economic stimulus to the West.

## TIME AND TIDE

Fifteen months have now passed since the  
commencement of the European struggle, and  
no sign comes to us of a surrender from either  
side. It happened, as the Allies expected, that  
Germany won certain successes in the initial  
stage of the war and her completeness of pre-  
paration gave her much manifest superiority to  
her Russian antagonist. And even now, after  
the long fifteen months, the German army in the  
west still holds French and Belgian territory, in  
the east it holds Russian territory, and in the  
south it is fighting on Serbian soil; so that after  
this most colossal of all contests, this nation of  
60,000,000, assisted by Austria with its 40,000,000,  
is able to hold its own with the Allied nations  
representing in Europe alone over 200,000,000  
people, and German soil is still intact. Germany  
is yet uninvaded and she is yet able to meet her  
opponents upon fairly equal terms. This is  
truly a marvellous feat.But when we have said this, we have said all  
that can be said of the German campaign. The  
bright visions of the early days have faded, and  
Germany is now fighting grimly with her back to  
the wall, putting forth desperate efforts to  
defeat her foes, and succeeding only in post-  
poning the day of her own defeat. In spite of  
all her great strength, Germany is a beaten foe.  
Her efforts to weaken the British navy have  
utterly failed, and today that navy has drawn a  
cord around Germany which has almost com-  
pletely strangled her sea-borne foreign trade,  
while the German navy, the pride of the Kaiser's  
heart, and the weapon with which he was to  
beat Britain into submission, hides closely in  
German harbors, afraid to meet the foe.On land, the German attempts to crush her  
foes have been failures; now the latter are  
simply awaiting the wearing down process,  
knowing that Germany has shot her bolt, and  
that while she may resist fiercely for months to  
come, her armies are on the down grade, and  
ultimately, must perish from exhaustion.Give your custom to those  
who tell you they want it.

If you did we wouldn't insure you. How could we otherwise promise to pay \$1000 as against such a small first payment. Here is how we calculate: Out of 1,000 healthy men at age 30, about 200 will die by 20 years, but we don't know which ones and neither do you. We are safe in taking a small payment to-day as against the \$1000 we may have to pay tomorrow, because we insure large numbers. Your wife is carrying the risk of your being among the 200.

Many Zeppelins Driven Off

Mr. John Simon Says They Do Not Even Reach the Coast

Mr. John A. Simon, chief secretary, replying to a question in the House of Commons, said that it would not be possible to warn London of Zeppelin raids, as the time taken to get the Zeppelins down was more than the time taken to get the Zeppelins down.

"If the public was warned every time Zeppelins were sighted on their way to England," said the home secretary, "the time taken to get the Zeppelins down would be more than the time taken to get the Zeppelins down."

## Canada's Demand

A Gathering of National Strength and Display of National Vigor

Time and again it has been pointed out that Canada has done little, if anything, in furnishing men for service in the British or Australian. ## Chronic Coughs

The prostrating cough tears down your strength.

The closed air-tubes directly affect your lungs and speedily cause pleurisy, pneumonia, consumption.

SCOTT'S EMULSION overcomes bronchitis, restores the lungs, and relieves the cough that causes the trouble, and every drop helps to strengthen your lungs.

Good-Bye Summer

Joys and Sorrows the Seasons Bring as They Come and Go

Yesterday, over the western hills, the summer sun went down. The season which three months ago we hailed as the "good old time," has crystallized into a memory, a memory that glories with the compelling colors of autumn and hopes unquenched, and the "good old time" is gone.

Mr. J. Templeton of Vandyne  
was an Empress visitor on  
Tuesday. He voiced a com-  
plaint which has been made to  
us on several occasions during  
the past two weeks--the inade-  
quacy of the ferry service at  
the present time when the farm-  
ers from north of the Red Deer  
should be hauling their grain.  
Templeton said, that Empress  
was his legitimate market, yet  
the poor service for crossing  
the river, practically delarded  
himself and his neighbors from  
marketing their grain here.  
That the present service for  
crossing the river is a bad set-  
back both to the farmer and  
business man, there is no deny-  
ing. It is to the interests of  
both to see that another year  
is not allowed to pass without
